ROSEMEAD CA 91770

To Whom It May Concern,

I was hoping to learn more from you about potential employment opportunities currently open. Transitioning from health care to full-stack engineering is something I've been able to accomplish thanks to The Flatiron School. I am also currently teaching myself AWS with the goal to get certified since many businesses are looking to transition their current situation to AWS.

I may be a little wet behind the ears in my development skills but I make up for that in my ability to stay calm in most situations, my desire to learn and betterment of myself. Technology is ever growing, so as a developer, I'm constantly learning about new technologies and figuring out how to implement them. I hope to hear back from you soon.

Sincerely,

Oscar Vuong

Objective

Obtain a position in which I can use my experience and increase my knowledge to my fullest potential and provide the highest quality of work to benefit my employer.

Education

The Flatiron School - November 2018 - May 2019 - Completed

High School Diploma - Gabrielino High School 2009-2013 - Completed

Skills

I am someone who takes initiative and is a multitasker, I take criticism really well and enjoy being educated on what I can improve on. Organized and time efficient, I have knowledge and skills in database and network management as well as full-stack engineering (Front-end: Javascript Back-end: Ruby). I am constantly learning new skills to match what is expected of me and improving on my current ones so I don't fall behind.
